Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
4. Group I, claim(s) 1-5, drawn to a metal member to be cast wrapped.
5. Group II, claim(s) 6-8 and 12, drawn to a cylindrical member to be cast wrapped.
6. Group III, claim(s) 9-11 and 13, drawn to a method of making a cylindrical member to be cast wrapped.
7. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Toyo Kogyo Co. JP 49-44857 teaches a cylindrical metal member to be cast wrapped wherein the outer surface possesses projections arranged axially and circumferentially and wherein the tip portions are bent laterally. In some configurations, it appears that the maximum width of the tip portions is wider than a maximum width at a base portion. See Toyo Kogyo Co. (Figures, including Figure 2; Claims; col. 3, line 32 to col. 4, line 40). Since the subject matter of Claim 1 and 6, which are the respective independent claims of Groups I and II, are anticipated, there can be no same or corresponding special technical feature among the categories of inventions of the respective groups. Hence, there is no single general inventive concept among the groups, and so restriction is appropriate.
8. A telephone call was made to Mr. Hanson on 16 June 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
